ABSTRACTED-PUB-NO: JP 11136202A

BASIC-ABSTRACT:

NOVELTY - The backup apparatus simultaneously records logging signal along with the broadcast material being sent out to the transmission line, thus automatically providing backup for broadcast material to be transmitted, whenever there is a failure.

USE - Provides backup of the broadcast material in radio broadcast.

ADVANTAGE - Reduces time and labor as the backup procedure is automatically done. DESCRIPTION OF DRAWING(S) - The figure shows the block diagram of the automatic program broadcast apparatus employing backup apparatus.
